

Key evidence/artifacts available through the Learning Village:

M-DCPS District Curriculum Pacing Guides are organized by grade level and content area, including a Year-at-a-Glance for each grade/subject area. The guides provide a sequence and pacing guideline aligned to district, state, and national standards and linked to exemplar lessons, up-to-date instructional, and digital resources.

M-DCPS Extended Learning Modules are District developed supplementary lessons that support instruction in tested areas: Language Arts/Reading (3rd-10th gr.), Mathematics (3rd – 8th gr.), 5th and 8th grade science, Algebra I, Geometry, Biology, Civics, and U.S. History. These modules may be utilized to supplement instruction through push-in or pull-out intervention, before or after school tutorial sessions, Saturday Academies, or for review/remediation purposes.

Learning Village Dashboard

The Learning Village Dashboard is a collection of information modules that provide snapshots of new content, pacing guides, Extended Learning Modules, district approved digital resources for grades K-12 by content area and upcoming events, all from a centralized SharePoint Web portal. Content from publishers is fully integrated into the portal as well as pacing guides aligned to state standards and supporting resources.
