## A Legacy of Learning

Key evidence/artifacts available in M-DCPS' Financial Services website includes links to various district financial reports and related sites, such as Payroll and Risk Management. The Budget Resource Center link makes available budget presentations, annual financial reports, board budget workshops, budget development and review procedures, budget-personnel opening of schools procedures, comprehensive annual financial reports, annual **Executive** Summaries and School Allocation Plans, as well as School Based Budget System reports.

## M-DCPS Financial Services

## **Financial Services Website**

Financial Services provides for the effective, efficient and timely management of the financial transactions of the district including planning, estimating, and controlling revenues and expenditures, receiving and investing revenues, disbursing payroll and vendor payments, all procurement activity and accounting for all of these transactions in an appropriate manner meeting standards of the Florida Department of Education and of the Government Accounting Standards Board.

Since nearly 90 percent of the school system's operating revenue comes from direct state funds and the state Required Local Effort (RLE) millage levy, the district has a vested interest in the legislative process.
