

Since 2007, funding for public education has been cut substantially. The financial forecast for the state of Florida again seems dismal, with projected budget shortfalls between \$1.1 billion and \$3.2 billion. The state's shortfall will impact our schools. I urge you to join me at Miami-Dade County Public Schools' Budget Town Hall Meeting and become informed about the 2010-2011 budget forecast.

School District financial experts will provide an overview of next year's budget outlook, followed by a panel discussion with community stakeholders, and a question and answer session. I will conclude the presentation with details on how the School District is working to maintain world-class educational opportunities for our more than 340,000 students. I look forward to seeing you at this important community meeting.

# 21st Century Schools

Miami-Dade County Public Schools

On November 6, 2012, our school system asked you to invest in our schools by approving the issuance of a \$1.2 billion General Obligation Bond (GOB) for renovating facilities, updating technology, expanding student capacity, building school replacements, and enhancing facility safety. You let your voices be heard in a clear community mandate, and now we are moving forward to remake our schools into 21<sup>st</sup> century learning centers.
