Transition Everyone”*

MIAMI-DADE COUNTY PUBLIC SCHOOLS
MIAMI DADE COLLEGE

2013-2014

CAREER PATI-IWAYS
ARTICULATION AGREEMENT
<http://dcte.dadeschools.net>

GENERAL PROVISIONS

- Official high school transcripts must be presented to Miami Dade College (MDC) upon registration.
- Articulated Miami-Dade County Public Schools (M-DCPS) classes must have attained a “B” grade or higher.
- Cumulative GPA of “C” or higher for senior high school.
- Must meet MDC admission requirements.
- No charge will be assessed for posting the articulated credits.
- Academic deficiencies, as identified by MDC, must be satisfied by completion of college preparatory courses.

Please direct M-DCPS questions concerning these agreements to the:

Division of Career and Technical Education

Ms. Diana Collingwood,
Instructional Supervisor
Ph: 305-693-3030 ext. 2602 or via e-mail at
dcollingwood@dadeschools.net

Please direct MDC questions concerning these agreements to Ms. Rosario Roman, District Director for School and College Relations at 305-237-3529 or via e-mail at RRoman@mdc.edu.

ANTI-DISCRIMINATION POLICY

The School Board of Miami-Dade County, Florida adheres to a policy of nondiscrimination in employment and educational programs/activities and strives affirmatively to provide equal opportunity for all as required by law.

WHAT IS A CAREER PATHWAY?

- A high school sequential Career and Technical Education program of study that leads to industry certification, a two-year postsecondary certificate and/or degree, with an option of continuing toward the completion of a baccalaureate degree.
- Career and Technical Education pathways are offered through M-DCPS Agriscience/ Public Services, Business Technology Education, Diversified/Marketing Education, Family and Consumer Sciences, Health Science Education, Industrial Education, and Technology Education programs of study.
- A program of study which builds students' competencies in communications, mathematics, social sciences, and science through the integration of core academics and applied technology.
- Preparation for immediate employment in an increasing competitive and technical workforce.
- Relevance of student course of study in secondary and postsecondary environments toward student interest and ability.

WHO ARE CAREER PATHWAY STUDENTS?

- High school or technical center students working toward program completion in a Career and Technical Education program of study.
- Students who are interested in earning industry certification and college credit.
- Students who wish to pursue a College Credit Certificate, Career Technical Certificate, or an Associate Degree.

WHERE ARE CAREER PATHWAYS PROGRAM STRANDS OFFERED?

- All M-CPS senior high schools and adult vocational education centers.
- All M-DCPS Postsecondary Technical Centers: Lindsey Hopkins Technical Center, Miami Lakes Educational Center, George T. Baker Aviation and Robert Morgan Educational Center.
- At identified M-DCPS Specialized Centers.
- All M-DCPS Alternative Education Centers.

WHY DO WE NEED CAREER PATHWAYS?

- Career and Technical Education prepares both youth and adults for a wide range of careers. These careers may require varying levels of education – from high school and postsecondary certificates to two- and four-year college degrees.
- Career and Technical Education is offered in middle schools, high schools, technical centers, colleges and other postsecondary institutions.

**FOLLOW THESE STEPS
AND TAKE THE PATHWAY TO MDC CREDIT**

STEP 1

Satisfy all Miami Dade College (MDC) admission requirements as stated in the 2010-2011 college catalog.

STEP 2

Submit official M-DCPS and MDC transcripts to any MDC campus offering the Associate in Science (AS) degree or certificate program in the area(s) where MDC credits were earned.

STEP 3

The Registrar's Office will forward a request form to the Transcript Evaluation department for posting of the articulated course credits on the student's transcript.

STEP 4

Complete 15 hours of MDC coursework, as listed below, in order to get the earned credits posted on MDC's transcript.

English Composition I – ENC 1101 (3 Credits)

General Education Course (3 Credits)

MDC Degree Program Awarding Credit (9 Credits)

Miami-Dade County Public Schools Division of Career and Technical Education

The Division of Career and Technical Education (CTE) supports programs that are intrinsically tied to postsecondary education and industry certification. CTE supports secondary and postsecondary programs throughout the school district.

M-DCPS and MDC developed the Miami-Dade Career Pathways Consortium to ensure that students will be provided with a seamless postsecondary transition. The District has entered into articulation agreements with two- and four-year, postsecondary institutions. Students, parents and educators working in collaboration with the business community are afforded opportunities to earn college credit and industry certification.

The goals of the Miami-Dade Career Pathways Consortium are in alignment with the M-DCPS District Strategic Plan.

- Providing transition/orientation experiences for students and teachers;
- Establishing links and partnerships between business and community entities and schools;
- Establishing links with postsecondary institutions;
- Providing informational services to students and parents to enhance student choices;
- Infusing core curriculum with applied technology components to enhance career preparedness;
- Developing Career Pathway marketing materials to increase student and parent awareness;
- Providing professional development training; and
- Providing career-focused student/educator activities and events.

The purpose of this booklet is to provide an understanding of the link between Miami-Dade County Public Schools (M-DCPS) and Miami Dade College (MDC), and is a beneficial tool for teachers, counselors, parents, students, and postsecondary personnel.

To assure the proper transfer of credits from senior high school to postsecondary programs, all interested participants should review the Miami-Dade College General Provisions described at the beginning of this guide, the steps to earning MDC credit shown on the previous page, as well as the courses and degree programs that comprise the M-DCPS and MDC Career Pathways Articulation Agreement.

Through the collaboration of MDC and M-DCPS, all participants will be provided with continued updates of articulation agreements between the secondary and postsecondary institutions. All students will be given the opportunity to develop the skills needed to meet their career goals.

MIAMI DADE COLLEGE “THE COLLEGE ROLE IN CAREER PATHWAYS”

Career Pathways links secondary and postsecondary institutions to create more cohesive programs. Career Pathways stresses the importance of creating a smoother transition between high school and college. Emphasis is placed on articulation agreements, a 2 + 2 curriculum bridging the two levels of college and career preparation. Therefore the essential component of Career Pathways is the collaboration of secondary and postsecondary institutions around career preparation.

The most frequent collaboration involves the process of specifying competencies necessary in postsecondary courses, laying the foundation for articulating secondary and postsecondary courses. These activities prepare students to enter college ready to do college-level work, less likely to need remedial education. College faculty in particular academic disciplines work with their secondary peers with the purpose of developing “career pathways” or majors that generate cohesive programs that integrate academic and applied technology for high school students. Additionally, college instructors can help articulate the demands of the workplace and the importance of key competencies, both academic and non-academic.

Career Pathway students receive counseling in high school that helps them think earlier and more deeply about their occupational interests and goals, and to see the value of completing high school and entering postsecondary education. We believe that the purpose of this connection is to stress that all students have the options of continuing their education, going into employment, or combining further schooling and employment. At Miami Dade College, we see the benefit of a larger number of more focused students, with more concrete goals, more accustomed to active and applied approaches to learning, and better prepared to transition into college work.

Articulation agreements have been the heart of Miami-Dade County Public Schools and Miami Dade College’s Career Pathways Program, offering benefits to students. The agreements established in a variety of areas, give students college credit for courses taken during high school, thus shortening the period of time necessary for completing a College Credit Certificate, Career Technical Certificate, or Associate Degree. In most cases, students can move directly into college-level courses and avoid the need for remediation.

This informational brochure features the Career Pathways agreements that put into writing a well-planned and sequential course of study that shows a pathway to college. We wish to share these agreements with potential participants, school administrators, college faculty and employers.
