

Key evidence/artifacts available in the Office of School Improvement (OSI) Website are comprehensive resources to assist in the development and monitoring of School Improvement Plans through schools' Educational Excellence School Advisory Councils (EESACS).

Links to progress monitoring reports, individual school SIP plans, power point presentations and training manuals, Interim Assessments (IA) data analysis tools, and Florida School Recognition Program information are easily accessible to provide schools with the most up to date information.

Data Coach and Actionable Data training resources have been designed to specifically train coaches on analyzing the most current interim assessment data for targeting instruction. Links to these resources are also contained in the OSI website

Office of School Improvement Website

The Office of School Improvement (OSI) assists schools in developing School Improvement Plans (SIPs) that are in alignment with the District Strategic Plan and state and federal requirements.

The Educational Excellence School Advisory Council (EESAC) is the sole body responsible for final decision making at the school relating to the implementation of the components of the School Improvement Plans. The EESAC's function is to bring together all stakeholders and involve them in an authentic role in decisions which affect instruction and the delivery of programs.
