The goal of the Summer Reading Camp Program required by the FLDOE is to provide third graders who did not pass the FCAT 2.0-Reading, or met any other good-cause exemptions another opportunity to demonstrate the ability to read and comprehend on grade level. At the end of the 20-day instructional cycle, students are given the SAT-10 Reading Comprehension assessment. Below is a correlation of NGSSS assessed on the SAT-10 and the After the Bell/Scholastic program.

In addition to the reading comprehension benchmarks that are explicitly taught, the After the Bell program also provides intervention to students who are still struggling with decoding skills that are preventing them from comprehending text fully. The program comes with a rich collection of authentic text in a variety of genres. Reading skill cards are included to reinforce reading skills through high-interest stories and articles. Questions in standardized-test format provide practice in comprehension, vocabulary and word study. Fluency cards with engaging poems, plays, and passages for reading practice give students an opportunity to reinforce phonics skills and provide automaticity practice while reading with a partner or choral reading.

Independent Reading Rotation

Part 1

Directions: Designate a timekeeper. For two minutes, preview one of the books in the independent reading library. Then complete the columns in the chart for that book. After you have previewed five titles, move on to Part 2.

Title	Easy, Average or Challenging	This book would appeal to a student who ..

Part 2

Directions: With a small group, brainstorm ways to address the following situations:

1. How can students be held accountable for the independent reading time?
2. How can you match students to the proper book if you don't know their Lexile score or Guided Reading Level?
3. What can you do if a student cannot read any of these titles independently?

Assessing Vocabulary

Effective assessment tasks that require students to apply what they have learned about a word fall into two categories.

Discrimination Tasks

This type of assessment requires students to answer focused questions about a word. Provide sentence starters for students to frame their answers.

Is it accurate to say our school is the largest in town? It (is/is not) accurate to say our school is the largest because _____.

How do you set your priorities for homework? I set my priorities for homework by _____.

If you could eliminate three devastating problems from the world, which would you choose? Three devastating problems that I would eliminate are _____.

Generative Tasks

This type of assessment requires students to develop additional examples, complete sentences, or explain opinions.

1. Yes-No-Why

Decide if the following sentence makes sense. Write YES or NO next to the sentence and explain your thinking. *School report cards always provide an accurate description of a student's work.*

2. Completion Activity

Complete the following sentence so that the second part shows your understanding of the word. *I could tell the newspaper article about our gym was not accurate; _____.*

3. Cloze Sentences

Omit the academic words you want to assess from sentences and leave a blank for students to fill in.

4. Visual Examples

Ask students to locate and share visual examples of word meanings from a newspaper, magazine, or Web site.

Assessing Vocabulary *(continued)*

Quick Assessments

Follow these tips to find ways to fit frequent checks for understanding into your instruction:

- Record an assessment task on the board for students to complete as they enter class.
- Require students to complete an assessment task as their ticket to exit class.
- Assign assessments as homework. Review student responses during the first few minutes next time the class meets.
