How are my students progressing towards Achieve3000's 40-activity usage goal?

August 1, 2013 - February 8, 2014

Identify the students who have reached the 40-activity goal which is recommended for significant academic progress.

Coral Gables Senior High School

Class Name	Total Students	Completed 2 Activities Weekly	Completed 1 Activity Weekly	Completed <1 Activity Weekly ¹	Met 40 Activity Goal (Year to Date)	Activities (Year to Date)	Activities (Average % Score)
+ Class: Chaviano Developmental ESOL Pd. 5	23	0	0	23	0	173	54

+ Class: Termes J period 3	32	4	16	12	9	964	55
School Total	526	30	168	328	75	11792	69

¹ Achieve3000 recommends completing one or two reading activities per week, for a total of 40-80 activities over the course of the school year. We encourage you to review the schedule of access for students who are completing fewer than one activity weekly to ensure that all students achieve maximum benefits.

² One or more of this student's multiple choice activities may be invalid. Refer to the My Lessons Activities report to learn more.

Note: This data excludes commonly celebrated holidays and school vacations.

The purpose of this report is to provide usage data for the regular multiple-choice activities, regardless of score. For the purpose of reinforcing students for doing quality work, the Student Edition dashboard displays activities with minimum first-try scores of 75%. Note that Stretch Activities and Bonus Activities are not counted in this report and do not count toward the 40-activity goal.

 Student is 'On Track' for College and Career Readiness. Students without a Lexile level for the current school year will not have a forecast for College and Career readiness.

Report Legend

#	Column	Description
1	User Name	User name
2	Lexile	Current Lexile. Click here to learn more about interpreting students' Lexiles.
3	Completed 2 Activities Weekly	Student is completing an average of two activities per week (<i>when summarized, this field indicates the total number of students completing two activities weekly</i>). Does not include Writing.

- | | |
|--|--|
| 4 Completed 1 Activity Weekly | Student is completing an average of one activity per week (<i>when summarized, this field indicates the total number of students completing one activity weekly</i>). Does not include Writing. |
| 5 Completed <1 Activity Weekly | Student is completing an average of fewer than one activity per week (<i>when summarized, this field indicates the total number of students completing fewer than one activity weekly</i>). Does not include Writing. |
| 6 Met 40 Activity Goal
(Year to Date) | Student has already completed 40 activities, the recommended number for significant Lexile gains (<i>when summarized, this field indicates the total number of students who have completed 40 activities</i>). Does not include Writing. |
| 7 Activities
(Year to Date) | Number of activities completed in total, since the beginning of the school year. Does not include Writing. |
