

A Legacy of Learning

Edmodo Collaboration Site

Key evidence/artifacts is M-DCPS' implementation of Edmodo district-wide as a resource that provides a social learning network where students can interact with their teachers and classmates, post assignments, participate in online discussions, and have live access to their learning from anywhere, anytime within a safe learning environment. Many District groups collaborate on Edmodo, such as iPrepmath featured here.

How do I enter a fraction into an edmodo quiz?
Dec 17, 2013 · 3 Replies ·

Ms. Brantley · Dec 17, 2013
Elan, I usually use $\frac{2}{3}$ and the students would enter that in as the fraction

Monica Velarde · Dec 17, 2013
Hi Mr. Daviglius. Edmodo supports LaTeX for writing math equations in Edmodo quizzes (as long as it is not a fill in in the blank question). Here is a link from the Help Center that has some helpful resources: <https://support.edmodo.com/home#entries/22840...>

Mr. Daviglius · Dec 18, 2013
ok cool thank you guys

The MATHia Software Units should be in your CUSTOM MODULE to add to your classes. I added a folder with all the descriptions and textbook chapters that will support. If you need assistance adding the modules to your classes, please contact Jenny or Kristin. Directions are also posted, just use Q3 iPrep Modules.
