

A Legacy of Learning

Key objectives for the Division of Student Services include:

1) Prepare students to achieve with skills for readiness to start school; 2) Increase the graduation rate and readiness for post-secondary education and employment; 3) Maximize student academic potential and performance; 4) Maximize student personal, emotional and social growth and development; 5) Enhance the learning environment; 6) Promote and enhance a healthy and safe learning environment; 7) Provide support to teachers, administrators and staff; and 8) Provide support to adult learners.

The Division's structure supports educational reform initiatives and takes into consideration current social climate and the unique issues faced by the multicultural/multilinguistic populations enrolled in Miami-Dade County Public Schools. School support services provided via the Division are an integral and central part of the district's total educational program. It is the mission of the Student Services area to provide the resources and the service support to insure that Miami-Dade County Public Schools attains its stated goals and fulfills its mission in terms of serving students.

Division of Student Services

Student Services "The Heart of Education"

The Division of Student Services, its programs and school-based professionals provide prevention and intervention services to PK-Adult students in support of schools throughout the District. Division programs services center around the students' skill development, and is delivered by an integrated team of student services professionals who are uniquely trained to address the academic, personal/social, career/community awareness and health and wellness development needs of all students. This is a systemic approach that delivers services to students and their families.
